# API SOFTWARE MODULE

## QONDAC API

Interconnect your systems. With QONDAC API it is possible to exchange data between systems as needed. Importing order and product data into QONDAC as well as reporting back production and process data to an ERP system or CSV-file for example.

### Your benefits

- Increase the Leverage: Make full use out of your data on a cross-system basis.
- Increase Transparency: Make data available exactly where they are valuable for you
- Increase Automation: Avoid manual data processing and communication by integrating interfaces
