Machine Control

Real Time Information - Anytime - Anywhere. Exploit the full potential of your sewing machines and optimize your machine usage by analysing machine data. Get valuable insights into machine availability, sewing speeds, handling times, error messages and much more. Save time by remotely installing machine updates to make sure your machinery is always in the best possible condition.

Your benefits

- Understand your shopfloor: Use machine data to define your personal KPIs and configure your personal dashboards
- Improve Quality and Productivity: Distribute your machine settings from one machine to all the others
- Improve Availability: Have machine updates centrally available for all your machines with new control boxes
- Export machine data and KPIs for big data analysis
