Service Call

Transform longlasting downtime into productive time!
No matter if there is a technical problem or application know-how is required. QONDAC Service Call connects to the right person in real time to get support immediately. Track and analyze your service calls to draw the right conclusions and to optimize productivity.

Your benefits

- Improve Availability: Minimize downtimes by accelerating support activities
- Improve Effectiveness: Service Calls include valuable information to classify and solve the occuring problem
- Enhanced Production Stability: Profit from service call logs by taking preventive measures
- Interconnected Services: Independent from the type and technology at the workplace
